

**Are you  
putting  
your  
personal  
assets at  
risk?**

An LLC isn't going to save you personally when your company gets sued. We have witnessed the debates between attorneys and risk management professionals over the years. The truth is: the corporate veil can be pierced and your assets are at risk.

Litigation for Directors & Officers, Employment Practices and Fiduciary Liability have grown substantially in recent years!

One tool Smith Davis Insurance use is an in-depth study of private middle market companies nationwide. Because of the valid statistics and benchmarking data, our clients are informed about the risks they face as owners and officers of a private company. However, like everything else, Smith Davis Insurance is also equipped to give you the tools you need to combat these trends. Contact your Risk Manager at Smith Davis Insurance today to obtain a complimentary copy of the private company survey. This information just may save your assets.
